LUSSO

We believe that the need for luxury should never eclipse quality; our hardware collection is a testament to this. Our gold-standard hardware range is crafted from solid materials with expert machined details. This includes luxury diamond knurling and Greek-inspired fluting, forming our Luxe and Dali collections, as well as the Eton range, which displays the Victorian Beehive design, part of our exclusive Art Deco collection.

Our hardware is designed as a small but impactful final touch to an interior, be it a door handle, door knob or pull bar, and is available in various finishes. Finishes include matte black, brushed Gold, brushed stainless, polished nickel aged bronze and distressed steel.
