LUSSO

Our Lusso Light collection of freestanding baths combines the convenience of a lightweight material with the signature qualities that Lusso is renowned for - timeless design, flawless finishes, and exceptional craftsmanship.

Enabling our luxury baths to be enjoyed within homes and settings of all shapes and sizes, the collection is expertly crafted from seamless acrylic that mirrors the look, finish and reassuring thickness of composite stone. The unrivalled flexibility of the lasting material allows us to offer beautifully finished fixtures that are light, practical, and easy to install, providing an attainable alternative to stone and marble with the same level of exceptional design.

Available in polished and matte finishes, the soft white hue of each design in the range is also a perfect colour match for our natural stone basins, allowing you to pair Lusso pieces together to create a cohesive aesthetic.

MIMI FREESTANDING BATH

£1,195.00

Echoing the iconic shape of our Picasso bathtub, the minimalist silhouette, generous depth and smooth curves of the Mimi Freestanding Bath make it a timeless design statement for any bathroom setting.
